## Professional Summary

**Technician in Business Administration**, graduated with honors from Universidad de las Américas in 2019.

I have developed modestly in the commercial field, as in recent years I have focused on teaching, practicing Martial Arts and Holistic Therapies, and providing some independent Business Consulting services.

However, I am now highly motivated to grow further in my Business Administration career, which is one of my true callings. With my strong technical foundation, sense of responsibility, and interpersonal skills, I am confident in my ability to meet and exceed expectations.

In addition, thanks to my holistic, well-rounded, human-centered, and creative approach, I maintain excellent interpersonal relationships that foster collaborative work, solution-seeking, and mutual support.

---
